Information about job offer

Job description

We are looking for 2 x Business Process Consultants for our client in the Pharma Industry.

Location: Greater Copenhagen, hybrid.

AREA OF RESPONSIBILITY

- Business process design: develop and optimize business processes to ensure efficiency, scalability, and alignment with business objectives
- Capability mapping: define and map business capabilities to support strategic goals and integrate with the warex solution
- Stakeholder engagement: collaborate with stakeholders to gather business requirements, identify pain points, and recommend process improvements
- Integration with IT architecture: coordinate with the IT architect to ensure business processes are supported by the IT infrastructure and align with technical specifications
- Sap integration: ensure business processes align with sap standards and leverage sap functionalities effectively
- Site assessments: support site assessments by analyzing current business processes, identifying gaps, and recommending improvements

- Documentation: create and maintain comprehensive documentation of business processes, capabilities, and requirements
- Business process modeling and optimization
- Business capability mapping and alignment
- Stakeholder engagement and requirements gathering
- Alignment with IT architecture
- SAP standards integration
- Support for site assessments and solution deployment
- Continuous improvement.
- Responsible for the Business Blue Print

INTERESTED?The position will be closed when we have found the right candidate, and we encourage you to apply as soon as possible. Notice only your CV in English is necessary.
